Details of the Placing

Metminco Limited announces today its intention to conduct a placing to raise gross proceeds of approximately US\$40 million (£25.0, A\$41.1 million) through the issue of new Shares, (the “**Placing Shares**”).

The Institutional Placing is being conducted, subject to the satisfaction of certain conditions, through an accelerated book-building process to be carried out by Canaccord Genuity Limited (“**Canaccord Genuity**”), Liberum Capital Limited (“**Liberum**”) and Canaccord BGF Ltd (“**Canaccord BGF**”) acting as joint bookrunners (the “**Joint Bookrunners**”). The identity of Placees and the basis of the allocations are at the sole discretion of the Company and the Joint Bookrunners. The number of Placing Shares will be agreed by the Company with the Joint Bookrunners at the close of the book-building process. Details of the number of Placing Shares will be announced as soon as practicable after the close of the book-building process.

The Company will also seek to raise up to approximately US\$10 million (£6.4, A\$10.3 million) through a non renounceable rights issue of one new Share for every 20 Shares held at the Placing Price. The Placing Price represents a discount of approximately 3.57 per cent. and 11.23 per cent. to the closing middle market price per Ordinary Share on 23 November 2011 on the Australian Stock Exchange (“**ASX**”) and the AIM Market of the London Stock Exchange plc (“**AIM**”) respectively.

The Rights Issue will be conducted by Canaccord BGF.

The Institutional Placing will comprise two tranches, 211,850,000 Placing Shares (the “**Firm Shares**”) have been placed firm (the “**Firm Placing**”) pursuant to the Directors’ existing authority under the ASX Listing Rules to allot Shares for cash on a non pre-emptive basis. An additional number of Placing Shares (the “**Conditional Shares**”) may be placed conditional (the “**Conditional Placing**”) on receipt of shareholder approval at an extraordinary general meeting of the Company to be convened on or around Wednesday 4 January 2012 (the “**General Meeting**”).

The books for the Institutional Placing will open with immediate effect. The books are expected to close no later than

4.30 p.m. (London) today. The timing of the closing of the books and the making of allocations may be accelerated or delayed at Joint Bookrunner's sole discretion. Appendix I to this announcement contains the detailed terms and conditions of the Placing.

By choosing to participate in the Placing and by making an oral and legally binding offer to acquire Placing Shares, investors will be deemed to have read and understood this announcement in its entirety, including the Appendices, and to be making such offer on the terms and subject to the conditions contained herein and to be making the representations, warranties, undertakings and acknowledgements contained in Appendix I to this announcement.

The Placing Shares will be issued credited as fully paid and will rank *pari passu* with the existing issued Shares, including the right to receive all dividends and other distributions declared, made or paid on or in respect of such shares after the date of their issue. The Institutional Placing is being made on a non pre-emptive basis to enable the Company to further develop its institutional shareholder base as an essential part of the group's further development. In order to allow individual shareholders to enjoy the same terms, the Company is also undertaking the Rights Issue.

The Company will apply for admission of the Firm Shares to be traded on AIM and the ASX ("**First Admission**"). It is expected that First Admission will take place and that trading will commence on ASX on or around Thursday 1 December 2011 and on AIM at 8.00 a.m. on or around Thursday 1 December 2011 and in any event no later than 30 December 2011.

Subject to shareholder approval at the General Meeting, the Company will also apply for admission of the Conditional Shares to be traded on AIM and the ASX ("**Second Admission**"). It is expected that Second Admission will take place and that trading will commence on ASX on or around Friday 6 January 2012 and on AIM at 8.00 a.m. on or around Thursday 5 January 2012 and in any event no later than 31 January 2012.

The Firm Placing is conditional, among other things, upon First Admission becoming effective. The Conditional Placing is conditional, among other things, upon shareholder approval at the General Meeting and First Admission and Second Admission becoming effective. The Firm Placing is not conditional upon the Conditional Placing and the Institutional Placing is not conditional upon the Rights Issue.

The Firm Placing and the Conditional Placing are also conditional upon the placing agreements made (i) between the Company, Canaccord Genuity and Liberum and (ii) between the Company and Canaccord BGF not being terminated prior to First Admission (or, as the case may be, Second Admission) in accordance with their respective terms.

Appendix I to this announcement (which forms part of this announcement) sets out the terms and conditions of the Placing. Defined terms used in Appendix I are set out at the end of this announcement and risk factors to the Placing are set out in Appendix II to this announcement.

Rights Issue

As stated above, the Company is pleased to announce the Rights Issue to be offered at the Placing Price. Australian and New Zealand shareholders registered on the share register of the Company on Wednesday 14 December 2011 ("**Record Date**") will be entitled to participate in the Rights Issue. A disclosure document ("**Prospectus**") for the Rights Issue will be lodged with the Australian Securities and Investments Commission and issued when the Shares are offered under the Rights Issue.

Details of the proposed use of funds in respect of the Rights Issue and the Institutional Placing are set out in this announcement under the heading 'Use of Proceeds'. Shares issued under the Rights Issue will rank *pari passu* with the existing issued Shares.

Background to and reasons for the Placing

During the financial year 2011, the Company has made strong operational progress at all of its projects. In particular, the drilling results received to date from the 32,000m Metminco has completed in the Phase 3 diamond drilling ("**DD**") programme have provided further confirmation that the Los Calatos copper/molybdenum project is a world class project. The Phase 3 DD programme is scheduled to be completed by the year end and, in light of the results received so far, the Company intends to undertake a significant ± 100,000m Phase 4 drilling programme commencing January 2012 to achieve an updated interim JORC resource statement during Q3 2012 and an updated JORC resource statement by early 2013 on which to base the Company's proposed pre-feasibility study.

At the Company's Mollacas copper leach project, Metminco recently completed a 2,250m DD programme, which provided ore for metallurgical testwork and additional information for the derivation of a final JORC resource estimate which is expected in Q1 2012. A 1,154m reverse circulation ("**RC**") drilling programme to provide clearance for the planned infrastructure, and for hydrogeological studies has also been completed.

Following completion of metallurgical work and the anticipated resource update, Metminco expects to start the Mollacas

definitive feasibility study during the first half of 2012 as well as certain pre-development work.

At the Company's Vallecillo project, the 9,000m DD programme to upgrade the existing JORC resource at the La Colorada polymetallic deposit is underway and expected to be completed in Q1 2012, leading to a resource upgrade late Q1 2012. In light of the anticipated results of this Phase 3 drilling programme, Metminco expects to commence a scoping / pre-feasibility study during the first half of 2012 and further metallurgical testwork to support the study. The Company is in the early stages of its initial phase of drilling on a potential copper / molybdenum porphyry system that has been identified at Vallecillo.

Work, including further metallurgical testwork, at the Company's Camaron and La Piedra projects continues with RC drilling totalling 10,000m expected to be completed during Q1 2012, following which the Company expects to continue with the exploration of these projects subject to encouraging results.

To continue with value creation for shareholders and to fund the continuing development of these multiple prospective projects within the optimal time scales, in particular, Los Calatos and Mollacas, the Company requires the additional funds to be provided by the Placing.

As at 31 October 2011, the Company had a cash balance of US\$25.2 (A\$23.6) million.

Use of proceeds

Metminco intends to use the proceeds of the Placing to:

- Fund the ± 100,000m Phase 4 drilling programme at Los Calatos – US\$31.5 million
- Fund the detailed feasibility study and pre-development work at Mollacas – US\$5.0 million
- Fund the pre-feasibility/scoping study at Vallecillo – US\$1.5 million
- Provide additional funds to allow exploration, project development and for working capital – US\$12 million¹

1: If the US\$10m Rights Issue is not taken up in full, the additional exploration, project development and working capital use of proceeds will be reduced accordingly.

William Howe, Chief Executive of Metminco Limited said:

"We are delighted with the institutional support we have received as a result of the Placing. We are now fully funded to deliver our 2012 work programme and make significant progress in delineating the world class Los Calatos porphyry system and position ourselves to bring Mollacas towards near term production as planned."

Notice of General Meeting

The Company intends to mail a circular, on or around Wednesday 30 November 2011, to all shareholders giving notice of the General Meeting with an accompanying explanatory memorandum which provides further information on the proposed resolutions to be considered at the General Meeting. This notice will be available at www.metminco.com.au.

APPENDIX I

TERMS AND CONDITIONS OF THE PLACING

IMPORTANT INFORMATION FOR INVITED PLACEEES ONLY REGARDING THE PLACING

Details of the Placing

The Joint Bookrunners have entered into agreements with Metminco (the “**Placing Agreements**”) under which, subject to the conditions set out in these agreements, the Joint Bookrunners have agreed to use reasonable endeavours to procure subscribers for the Placing Shares at a price to be determined following completion of the bookbuilding process in respect of the Placing (the “**Bookbuild**”), described in this announcement and set out in the Placing Agreement.

The Placing Shares will, when issued, be credited as fully paid and will rank *pari passu* in all respects with the existing issued Ordinary Shares including the right to receive all dividends and other distributions declared in respect of such ordinary shares after the date of issue of the Placing Shares.

Application for admission to trading

Application will be made to the London Stock Exchange for admission of the Placing Shares to trading on AIM and ASX. The Placing is subject to the conditions set out below in the section entitled “Conditions of the Placing”. It is expected that Admission of the Firm Shares will become effective on or around Thursday 1 December 2011 and that Admission of the Conditional Shares will become effective on or around Friday 6 January 2012.

Bookbuild

The Joint Bookrunners will today commence the Bookbuild to determine demand for participation in the Placing by Placees. This Appendix gives details of the terms and conditions of, and the mechanics of participation in, the Placing. No commissions will be paid to Placees or by Placees in respect of any Placing Shares.

The Joint Bookrunners and Metminco shall be entitled to effect the Placing by such alternative method to the Bookbuild as they may, in their sole discretion, determine.

Participation in, and principal terms of, the Placing:

1. Canaccord Genuity, Liberum and Canaccord BGF are acting as joint bookrunners and agents of Metminco.
2. Participation in the Placing will only be available to persons who may lawfully be, and are, invited to participate by the Joint Bookrunners. The Joint Bookrunners and their affiliates are each entitled to enter bids in the Bookbuild as principal. The Canaccord BGF may, in respect of investors in Australia, invite only Australian Investors to participate in the Placing.
3. The Bookbuild will establish a single price payable to the Joint Bookrunners by all Placees whose bids are successful (the “**Placing Price**”). The Placing Price and the number of Placing Shares to be issued will be agreed between the Joint Bookrunners and Metminco following completion of the Bookbuild. The Placing Price and the number of Placing Shares will be announced on a Regulatory Information Service following the completion of the Bookbuild.
4. To bid in the Bookbuild, Placees should communicate their bid by telephone to their usual sales contact at any of the Joint Bookrunners or, in the case of Canadian Placees, their usual contact at the Canadian Affiliate. Each bid should state the number of Placing Shares which the prospective Placee wishes to subscribe for at either the Placing Price, which is ultimately established by Metminco and the Joint Bookrunners, or at prices up to a price limit specified in its bid. Bids may be scaled down by the Joint Bookrunners on the basis referred to in paragraph 9 below.
5. The Bookbuild is expected to close during the course of today but may be closed later at the discretion of the Joint Bookrunners and Metminco. The Joint Bookrunners may, in agreement with Metminco, accept bids that are received after the Bookbuild has closed. Metminco reserves the right (upon the agreement of the Joint Bookrunners) to reduce or seek to increase the amount to be raised pursuant to the Placing, in its absolute discretion.
6. Each prospective Placee’s allocation, including the split between Firm Shares and Conditional Shares, will be determined by Metminco in consultation with the Joint Bookrunners (or the Canadian Affiliate) and will be confirmed orally by one of the Joint Bookrunners as agent of Metminco following the close of the Bookbuild. That oral confirmation will constitute an irrevocable legally binding commitment upon that person (who will at that point become a Placee) in favour of the Joint Bookrunners and Metminco to subscribe for the number of Placing Shares allocated to it at the Placing Price on the terms and conditions set out in this Appendix and in accordance with Metminco’s constitution.
7. Each prospective Placee’s allocation and commitment will be evidenced by a contract note issued to such Placee by one of the Joint Bookrunners. The terms of this Appendix will be deemed incorporated in that contract note.

8. Each Placee will also have an immediate, separate, irrevocable and binding obligation, owed to Metminco and the relevant Joint Bookrunner as agent of Metminco, to pay the relevant Joint Bookrunner (or as it may direct) in cleared funds, an amount equal to the product of the Placing Price and the number of Placing Shares such Placee has agreed to subscribe and Metminco has agreed to allot and issue to that Placee.
9. The Joint Bookrunners may choose to accept bids, either in whole or in part, on the basis of allocations of Firm Shares and Conditional Shares determined in agreement with Metminco and may allocate Firm Shares and/or Conditional Shares and/or scale down any bids for this purpose on such basis as they may determine. The Joint Bookrunners may also, notwithstanding paragraphs 4 and 5 above, subject to the prior consent of Metminco (i) allocate Placing Shares after the time of any initial allocation to any person submitting a bid after that time and (ii) allocate Placing Shares after the Bookbuild has closed to any person submitting a bid after that time.
10. A bid in the Bookbuild will be made on the terms and subject to the conditions in this announcement and will be legally binding on the Placee on behalf of which it is made and except with the consent of the Joint Bookrunners will not be capable of variation or revocation after the time at which it is submitted.
11. Irrespective of the time at which a Placee's allocation pursuant to the Placing is confirmed, settlement for all Firm Shares (or, as the case may be, Conditional Shares) to be acquired pursuant to the Placing will be required to be made at the same time, on the basis explained below under "Registration and settlement".
12. All obligations under the Bookbuild and Placing will be subject to fulfilment of the conditions referred to below under "Conditions of the Placing" and to the Placing not being terminated on the basis referred to below.
13. By participating in the Bookbuild, each Placee will agree that its rights and obligations in respect of the Placing will terminate only in the circumstances described below and will not be capable of rescission or termination by the Placee.
14. To the fullest extent permissible by law, none of the Joint Bookrunners nor any of their affiliates shall have any liability to Placees (or to any other person other than Metminco whether acting on behalf of a Placee or otherwise). In particular, none of the Joint Bookrunners nor any of their affiliates shall have any liability (including to the fullest extent permissible by law, any fiduciary duties) in respect of the Joint Bookrunner's conduct of the Bookbuild or of such alternative method of effecting the Placing as the Joint Bookrunners and Metminco may agree.
15. In addition, any of the Joint Bookrunners or their respective affiliates may enter into financing arrangements and swaps with investors in connection with which such Joint Bookrunners (or their affiliates) may from time to time acquire, hold or dispose of Ordinary Shares.

Conditions of the Placing

The obligations of the Joint Bookrunners under the Placing Agreements in respect of the Firm Placing are conditional on, among other things:

- (a) the warranties set out in the Placing Agreements being true and accurate and not misleading; and
- (b) Admission to AIM of the Firm Shares taking place by 8.00 am (London time) on Thursday 1 December 2011 (or such other date as may be agreed between the Company and the Managers, not being later than the 30 December 2011).

The obligations of the Joint Bookrunners under the Placing Agreements in respect of the Conditional Placing are conditional on, amongst other things:

- (a) Admission of the Firm Shares becoming effective;
- (b) the warranties set out in the Placing Agreements being true and accurate and not misleading;
- (c) an ordinary resolution being passed by the members of the Company authorising the allotment and issue of the Conditional Shares on a non-pre-emptive basis; and
- (d) Admission to AIM of the Conditional Shares taking place by 8.00 a.m. (London time) on Friday 6 January 2012 (or such later date as may be agreed between the Company and the Joint Bookrunners not being later than 31 January 2012).

If any of the conditions contained in the Placing Agreements in relation to the Firm Placing are not fulfilled or waived by the Joint Bookrunners, by the respective time or date where specified (or such later time and/or date as Metminco and

the Joint Bookrunners may agree, not being later than 30 December 2011), the Firm Placing will not proceed and the Placee's rights and obligations hereunder in relation to the Firm Shares shall cease and terminate at such time and each Placee agrees that no claim can be made by the Placee in respect thereof. The Firm Placing is in no way conditional upon the Conditional Placing.

If any of the conditions contained in the Placing Agreements in relation to the Conditional Placing are not fulfilled or waived by the Joint Bookrunners, by the respective time or date where specified (or such later time and/or date as Metminco and the Joint Bookrunners may agree, not being later than 31 January 2012), the Conditional Placing will not proceed and the Placees' rights and obligations hereunder in relation to the Conditional Shares shall cease and terminate at such time and each Placee agrees that no claim can be made by the Placee in respect thereof.

The Joint Bookrunners may, at their discretion and upon such terms as they think fit, waive compliance by Metminco with the whole or any part of any of Metminco's obligations in relation to the conditions in the Placing Agreements. Any such extension or waiver will not affect Placees' commitments as set out in this announcement.

None of the Joint Bookrunners, Metminco or any other person shall have any liability to any Placee (or to any other person whether acting on behalf of a Placee or otherwise) in respect of any decision they may make as to whether or not to waive or to extend the time and/or the date for the satisfaction of any condition to the Placing nor for any decision they may make as to the satisfaction of any condition or in respect of the Placing generally, and by participating in the Placing each Placee agrees that any such decision is within the absolute discretion of the Joint Bookrunners.

The Placing Agreements may be terminated by the relevant Joint Bookrunners at any time prior to Admission in certain circumstances including, among other things, following a breach of the relevant Placing Agreement by the Company or the occurrence of certain force majeure events.

Upon such termination, the parties to the relevant Placing Agreement shall be released and discharged (except for any liability arising before or in relation to such termination) from their respective obligations under or pursuant to that Placing Agreement subject to certain exceptions.

By participating in the Placing, Placees agree that the exercise by the Joint Bookrunners of any right of termination or other discretion under the Placing Agreement shall be within the absolute discretion of the Joint Bookrunners and that they need not make any reference to Placees and that they shall have no liability to Placees whatsoever in connection with any such exercise or failure so to exercise.

UK, EEA and Canadian settlement

Settlement of transactions in the Placing Shares following Admission will take place within the system administered by Euroclear UK & Ireland Limited ("**CREST**"), subject to certain exceptions. Metminco reserves the right to require settlement for and delivery of the Placing Shares (or a portion thereof) to Placees in certificated form if, in the relevant Joint Bookrunners' opinion, delivery or settlement is not possible or practicable within the CREST system or would not be consistent with the regulatory requirements in the Placee's jurisdiction.

Following the close of the Bookbuild for the Placing, each Placee allocated Placing Shares in the Placing will be sent a contract note stating the number of Placing Shares to be allocated to it at the Placing Price and settlement instructions.

Each Placee agrees that it will do all things necessary to ensure that delivery and payment is completed in accordance with the standing CREST or certificated settlement instructions that it has in place with the relevant Joint Bookrunner. Metminco will deliver depositary interests representing the Placing Shares to a CREST account operated by the relevant Joint Bookrunner as agent for Metminco, and the Joint Bookrunners will enter their respective delivery (DEL) instruction into the CREST system. The input to CREST by a Placee of a matching or acceptance instruction will then allow delivery of depositary interests representing the relevant Placing Shares to that Placee against payment.

It is expected that settlement in respect of the Firm Placing will take place on Thursday 1 December 2011 and that settlement in respect of the Conditional Placing will take place on Friday 6 January 2012.

Interest is chargeable daily on payments not received from Placees on the due date in accordance with the arrangements set out above at the rate of two percentage points above LIBOR as determined by the Joint Bookrunners.

Each Placee is deemed to agree that, if it does not comply with these obligations, Metminco may sell any or all of the Placing Shares allocated to that Placee on such Placee's behalf and retain from the proceeds, for Metminco's account and benefit, an amount equal to the aggregate amount owed by the Placee plus any interest due. The relevant Placee will, however, remain liable for any shortfall below the aggregate amount owed by it and may be required to bear any stamp duty or stamp duty reserve tax (together with any interest or penalties) which may arise upon the sale of such Placing Shares on such Placee's behalf.

If Placing Shares are to be delivered to a custodian or settlement agent, Placees should ensure that the trade confirmation is copied and delivered immediately to the relevant person within that organisation. Placees will not be entitled to receive any fee or commission in connection with the Placing.

Australian settlement

The Company will apply to the ASX for admission of the Placing Shares to Official Quotation within seven days after the date of this announcement. If the ASX does not grant permission for Official Quotation of the Placing Shares within three months of the date of this document, or such longer period as is permitted by the Corporations Act, the Company will not allot or grant the Placing Shares (unless ASIC grants to the Company an exemption permitting the allotment and grant). In this case, the Company will refund to Placees all money paid in respect of the Placing Shares, though any interest earned on that money will remain with the Company.

The Company participates in the ASX Clearing House Electronic Subregistry System (**CHES**). CHES is a computerised share registry and settlement system operated by the ASX Settlement and Transfer Corporation Pty Limited (**ASTC**), a subsidiary of the ASX, in accordance with the ASX Listing Rules and ASTC Settlement Rules. Settlement of the Placing Shares with CHES ordinarily occurs within 3 business days of the date of issue.

As Australian Investors will be broker-sponsored under the Placing, the ASTC will send each Australian Investor a CHES statement setting out the number of Placing Shares granted to each Australian Investor and the broker's allocated Holder Identification Number.

APPENDIX II

RISK FACTORS

Prospective investors should be aware that an investment in the Company involves a high degree of risk and may result in the loss of all or part of the investment. Investors are accordingly advised to consult an

authorised investment adviser who specialises in the acquisition of shares and other securities before making their decision to invest in the Company. In addition to the other information contained in this document, the following risk factors affecting the Company should be considered carefully in evaluating whether to make an investment in the Company.

This Appendix II contains what the Directors believe to be the principal risk factors associated with an investment in the Company. In addition to the other information contained in this document, these risk factors should be considered carefully in evaluating whether to make an investment in the Company. If any of the following risks, which are not exhaustive, were to materialise, the Group's business, financial condition, results, or future operations could be materially adversely affected. In any such case, the market price of the Shares could decline and a Shareholder may lose all or part of their investment. Additional risks and uncertainties not presently known to the Directors, or which the Directors currently deem immaterial, may also have an adverse effect on the Group. Prospective investors should carefully consider the other information in this document. Prospective investors should note that the risks described below are not the only risks faced by the Group and are not set out in any order of priority.

SPECIFIC RISKS RELATING TO THE GROUP

The Directors are responsible for ensuring that appropriate policies and procedures are in place to identify and monitor risks faced by the Group and to ensure that wherever possible such risks are managed with a level determined by the Directors as prudent.

A summary of some of the risk factors which have been taken into account include, but are not limited to, the following.

Generally

Metminco has a limited operating history. Metminco does not have cash flow producing assets and the ultimate success of the Group will depend on its ability to develop and generate cash flow from its projects in the future and to successfully discover new deposits on its exploration assets. There is a possibility that not all, or indeed any, of the projects in Group's current portfolio will develop as anticipated or that the Group will become profitable.

Litigation

Legal proceedings may arise from time to time in the course of the Group's business. Furthermore, litigation may be brought against third parties which could have an adverse affect on the Group.

Exploration Activity

All of the Group's projects are in the exploration phase. This is an inherently high risk stage and there is no guarantee of exploration success. Numerous potential drilling locations have been identified, but the Group cannot be sure that it will drill them. No assurance is given that future exploration efforts will result in the discovery of further mineral reserves or mineral resources or result in the discovery of any ore bodies suitable for economic extraction. Unsuccessful exploration activities could have a material adverse effect on the results of operations and the Group's financial condition.

Success in exploration is dependent upon a number of factors including, but not limited to, prospective projects, systematic target generation and follow-up, use of the latest technology, strong management oversight and project level execution and availability of exploration capital. Exploration involves numerous specific risks:

- Failure to delineate commercial mining resources;
- Delays in the availability of drilling rigs and the delivery of equipment;
- Hiring rates for drill equipment;
- Failure and/or breakdown of equipment;
- Industrial accidents;
- Unexpected drilling conditions;
- Availability of specialised personnel; and
- Adverse weather conditions

Exploration and appraisal is a process subject to unforeseen contingencies. Financial failure or default by any future alliance or joint venture partner of the Group may require the Group to face unplanned expenditure or risk forfeiting interests in relevant areas.

Geological Risks

The delineation of geological conditions and the definition of mineral resources and ore reserves is a complex process requiring input from many areas of specialisation and a high degree of interpretation of results obtained from

exploration programs. Even if the Group employs best industry practice to develop reliable estimates, there remains a risk that when mining commences geological conditions could vary with those projected. In this case, there is a risk that geological conditions could adversely affect ongoing operations and in extreme circumstances, result in the abandonment of a project.

Mineral Reserves and Resources are Estimates Only

There is no certainty that the mineral resources, or any mineral reserve, will be realised. Until a deposit is actually mined and processed, the quantity of mineral resources and reserves, and grades, must be considered as estimates only. In addition, the value of mineral resources and any mineral reserve will depend upon, among other things, metal prices and currency exchange rates. Any material change in quantity of mineral resources, or any mineral reserve, or grade, may affect the economic viability of any future mines. Any material reductions in the estimates or mineral resources, or mineral reserves, or the Group's ability to extract any ore, could have a material adverse affect on Metminco's future results of operation and financial condition.

Resource estimates are expressions of judgement based on knowledge, experience and industry practice. Often these estimates were appropriate when made but may change significantly when new information becomes available. There are risks associated with such estimates. Resource estimates are necessarily imprecise and depend to some extent upon interpretations, which may ultimately prove to be inaccurate and require adjustment. Adjustments to the Group's resources could affect the Group's development and mining plans.

Operating Risk

The operations of the Group may be disrupted by a number of events that are beyond the control of Metminco. These include but are not limited to:

- The availability of transportation capacity;
- Geological, geotechnical and seismic factors
- Industrial and mechanical accidents;
- Equipment and environmental hazards;
- Power supply failure; and
- Unscheduled shut downs or other processing problems.

As a consequence, it cannot be guaranteed that any of the exploration projects carried out will bring about any new commercial mining operations being brought into operation.

As is common with all mining operations, there is uncertainty and therefore risk associated with the Group's operating parameters and costs. These can be difficult to predict and are often affected by factors outside Metminco's control. If any such risks actually occur, the Group's business, financial condition and/or results of operations could be materially and adversely affected. In such a case, a shareholder may lose all or part of their investment.

Development of Production Operations

Specific risks include:

- Delays in access to land;
- Title to land;
- Permitting;
- Government regulation;
- Access to power; and
- Access to water

Production

If production eventuates, specific risks include:

- Adverse geological, seismic and geotechnical conditions;
- Failure and/or breakdown of equipment;
- Labour disputes;
- Industrial accidents; and
- Other environmental hazards and risks.

Risk of Payment Obligations

Under the exploration licenses and certain other contractual agreements to which the Group will be a party or may in

the future become a party to, the Group may become subject to payment and other obligations. If such obligations are not complied with when due, in addition to any other remedies that may be available to other parties, this could result in dilution or forfeiture of interests held by such companies. The Group may not have, or be able to obtain, financing for all such obligations as they arise.

Environmental Regulations

The Group's operations are subject to environmental regulation in all of the jurisdictions in which it operates. Such legislation covers a wide array of matters, including waste disposal, protection of the environment, worker safety, mine development, land and water use and the protection of endangered and protected species among others. Existing and possible future environmental legislation, regulations and actions could cause the Group to incur additional expenses, capital expenditures, restrictions and delays in the activities of the Group, the extent of which cannot be predicted.

Although precautions to minimise risk will be taken, operations are subject to hazards which may result in environmental pollution and consequent liability which could have a material adverse impact on the business, operations and financial performance of Metminco. Damages occurring as a result of such risks may give rise to claims against a member of the Group which may not be covered, in whole or part, by any insurance taken out. In addition, the occurrence of any of these incidents could result in the Group's current or future operational target dates being delayed or interrupted and result in increased capital expenditure.

Health and Safety

The Group's activities will continue to be subject to health and safety standards and regulations. Failure to comply with such requirements may result in fines and or penalties being assessed against the Group.

Additional Requirements for Capital

Further funds will be required once the Group completes its current proposed exploration and development activities. Unless and until the Group develops or acquires income producing assets, it will be dependent upon its cash resources, any funds derived from the exercise of options and its ability to obtain future equity or debt funding to support exploration, evaluation and development of the properties in which it has an interest.

The Group's ability to raise further equity or debt, or to divest part of its interest in a project, and the terms of such transactions will vary according to a number of factors, including the success of exploration results and the future development of the projects, stock market conditions and prices for commodities.

Should it subsequently be established that a mining production operation is technically, environmentally and economically viable, substantial additional financing will be required by the Group to permit and establish mining operations and production facilities. No assurances can be given that the Group will be able to raise the additional finances that may be required for such future activities. Commodity prices, environmental regulations, environmental rehabilitation or restitution obligations, revenues, taxes, transportation costs, capital expenditures and operating expenses and technical aspects are all factors which will impact on the amount of additional capital that may be required.

Any additional equity financing may be dilutive to shareholders and debt financing, if available, may involve restrictions on financing and operating activities. There are no assurances that additional financing will be available on terms acceptable to the Group, or at all. If the Group is unable to obtain additional financing as needed, it may be required to reduce the scope of its operations or anticipated expansion, forfeit its interest in some or all of its tenements, incur financial penalties and reduce or terminate its operations.

Insurance Coverage

The mining industry is subject to significant risks that could result in damage to, or destruction of, mineral properties or producing facilities, personal injury or death, environmental damage, delays in mining, monetary losses and possible legal liability which may exceed the Group's insurance coverage.

Key Management and Staff

The success of the Group is largely dependent on the abilities of its Directors, senior management and other key personnel. The loss of the services of these persons may have a materially adverse effect on the Group's business and its prospects. There is no assurance that the Group can retain the services of these persons. Failure to do so could have a materially adverse effect on the Group and its prospects.

Local Community

Positive relationships with local populations cannot be guaranteed. Such relationships are important and can affect the

ability of the Group to secure, amongst other things, surface rights, access, infrastructural support and the necessary labour required to operate a mine.

Legal Climate Considerations

The Chilean and Peruvian jurisdictions, where the Company is currently operating, differ from the legal system found in Australia and the UK. This could lead to exposure to any of the following risks:

- lack of guidance or interpretation of the applicable rules and regulations; and
- delays in redress or greater discretion on the part of the governmental authorities.

There can be no assurance that joint ventures, licences, licence applications or other legal arrangements will not be adversely affected by the actions of government authorities or others and the effectiveness of and enforcement of such arrangements in these jurisdictions cannot be certain.

GENERAL RISKS RELATING TO THE GROUP

General Risks

The activities of the Group will be subject to usual commercial risks and such factors as industry competition and economic conditions generally may affect the Group's ability to explore and develop income generating projects.

Competition

The Group will compete with numerous other mining companies (many of which have greater financial resources, operational experience and technical capabilities than the Group) in connection with the acquisition of mineral properties as well as for the recruitment and retention of qualified employees.

Growth Management

An inability to manage growth effectively could have a material adverse effect on the Group's business, results of operations and financial condition.

Economic Risks

Emerging markets such as Chile and Peru are potentially subject to more volatility and greater risks than more mature markets.

Changes in Economic Conditions

Factors such as inflation, currency fluctuation, interest rates, changes in legislation, political decisions, cost escalation and industrial disruption have an impact on operating costs and on metal prices.

Currency Risk

Expenditures of the Group will be incurred in a range of currencies, including Australian Dollars, US Dollars, Chilean Pesos, Peruvian Soles and Pounds Sterling. Changes in currency rates may have a negative impact on the financial statements of the Group.

Commodity Prices

Historically, commodity prices have fluctuated widely, affected by numerous external factors. Changes in commodity prices, especially for copper, and also gold, zinc and molybdenum, may have an impact on the Group's capability to raise additional funds, in the future.

If and when any of the Group's projects go into production, changes in relevant commodity prices may affect the profitability or viability of these mineral projects.

Changes in Government Policy

The Group will be subject to the rules and regulations of the countries it does business in, currently Australia, Chile and Peru. Its exploration activities, development projects and any future mining operations are subject to laws and regulations governing the acquisition and retention of title to mineral rights, mine development, health and worker safety, employment standards, fiscal matters, waste disposal, protection of the environment, and protection of

endangered and protected species and other matters. It is possible that future changes in applicable laws, regulations, agreements or changes in their enforcement or regulatory interpretation could have a material and adverse impact on the exploration activities of the Group and on planned development projects or future mining operations. Moreover, where required, obtaining necessary permits to conduct exploration or mining operations can be a complex and time consuming process and Metminco cannot provide assurance that any necessary permits will be obtainable on acceptable terms, in a timely manner or at all.

Geopolitical Climate

The political climate in Chile and Peru is currently stable and generally held to offer a favourable outlook for foreign investments. There is no guarantee that it will remain so in the future. Changes in government, regulatory and legislative regimes, potentially leading to expropriation of mining rights cannot be ruled out.

Forward looking statements

This document contains certain forward looking statements that involve risks and uncertainties. All statements other than statements of historical facts contained in this document, including statements regarding the Group's future financial position, business strategy and plans, business model and approach and objectives of management for future operations, are forward-looking statements. Generally, the forward-looking statements in this document use words like "anticipate", "believe", "could", "estimate", "expect", "future", "intend", "may", "opportunity", "plan", "potential", "project", "seek", "will" and similar terms. The Company's actual results could differ materially from those anticipated in the forward looking statements as a result of many factors, including the risks faced by the Company which are described in this Appendix II. Investors are urged to read this entire document carefully before making an investment decision. The forward looking statements in this document are based on the beliefs and assumptions of the Directors and information only as of the date of this document, and the forward looking events discussed in this document might not occur. Therefore, investors should not place any reliance on any forward looking statements. Except as required by law, the Directors undertake no obligation to publicly update any forward looking statements, whether as a result of new information, future earnings, or otherwise.

RISKS RELATING TO THE PLACING SHARES

Share dilution

Future equity offerings by the Company may dilute the percentage ownership of the Company by existing Shareholders. In certain circumstances, securities issued by the Company in the future may have rights, preferences or privileges attached to them that are senior to or otherwise adversely affect those attached to the shares.

Volatility in share price and liquidity

The share prices of publicly quoted companies can be volatile. The price of shares is dependent upon a number of factors, some of which are general or market specific, others of which are sector specific and others of which are specific to the Company. It may be the case that the market price of the Placing Shares does not fully reflect the underlying value of the Company.

Admission to AIM and ASX does not guarantee that there will be a liquid market for Placing Shares. In addition, the market for shares in smaller public companies is less liquid than for larger public companies. Therefore an investment in Placing Shares may be difficult to realise and the share price may be subject to greater fluctuations than might otherwise be the case.

Market value of the shares

The market value of, and the income derived from, the Placing Shares can fluctuate and can do down as well as up. Investors may not get back the full value of their investment. The market value of the Placing Shares also takes into account the relevant dividend yield and prevailing interest rates. The market value may vary considerably from the underlying net asset value of the Group.

The foregoing factors are not exhaustive and do not purport to be a complete explanation of all the risks and significant considerations involved in investing in the Company. Accordingly and as noted above, additional risks and uncertainties not presently known to the Directors, or that the Directors currently deem immaterial, may also have an adverse effect on the Company's business.
